Hear from our Clients:

Psychometric Assessment and Development Testimonial

"We have conducted several management development projects with the Listgrove HR team, which has provided the business with excellent results in developing people, succession and positioning employees to maximise their development and the benefit for the company. I would be happy to personally recommend Listgrove."

Outplacement Testimonial

“It can be a very lonely existence when you have been working all your life and suddenly find yourself out of work. With Listgrove outplacement there is no time limit and professional support is given by their consultants until you find a new job. Listgrove will give you help and advice in developing a professional CV, support in building up your own personal network, and the development of an effective action plan. Finding a new job can be a very long and daunting process and I found the help and support I got from Listgrove invaluable.”

HR Audit Case Study

When a fifth-generation family-run Chemicals business first engaged Listgrove, they were looking for support with best practice for their HR and People strategy. Without a defined HR function in the business, many of the management team were struggling with day-to-day decision making and how best to support their colleagues, particularly with the more complex issues. Listgrove completed a full HR audit, providing the leadership team with the necessary feedback and insight to successfully redefine their Company HR strategy.
