

RECRUITMENT CASE STUDY

LISTGROVE

INTERNATIONAL RECRUITMENT & HUMAN RESOURCES
PERFORMANCE THROUGH PEOPLE

Commercial Manager France, focused on PP and PE markets.

Chemieuro is an international chemical distribution business. Working with both Corporate organisations and SME's, they drive to provide customers with innovative solutions to their problems by understanding their individual needs.

Whilst exceeding expectations through the supply of high-quality materials and an excellent logistics network, Chemieuro recognized the importance of offering new products and exploring new markets. As a result, Listgrove was engaged to recruit a Commercial Manager focusing on PP and PE markets, servicing new and existing accounts and developing the company's presence in France.

Listgrove was able to fully comprehend the ideal candidate profile and the brief's key requirements and objectives. Following a detailed review and provision of all necessary documents, Listgrove identified a selection of profiles from which the final candidate was appointed.

"Listgrove is an expert in their field and it has been a pleasure to work with them in the recruitment of a Commercial Manager based in France. Jason Hutchison kept in constant contact with me throughout the process and has shown an in depth understanding of our needs."

Client testimonial – Styrenics Business Director

"I would like to take the chance to warmly thank Listgrove. The process was clearly explained and the follow up made in a timely manner. You were determined to find me a role and very aware of my professional background."

Candidate testimonial

Jason has operated in a commercial role for in excess of 15 years and is excellent in all aspects of customer care, business development and project management. His thorough approach has enabled success in appointing highly skilled individuals in Europe and North America. Whilst he has supported clients in most industrial sectors, he has enjoyed particular success across plastic processing, equipment and tooling.
